### **DETAILED ACTION**

The following action is in response to the amendment filed for application 10/650,225 on May 16, 2005.

#### ***Election/Restrictions***

Claim 13 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claim 18, directed to the species of Clutch 2 is no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

#### ***Allowable Subject Matter***

Claims 13-23, and 25-33 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the automatic transmission as claimed, and particularly including a first group of shift control element comprising of frictional shift elements; a second group of shift control elements comprising of positive-locking elements; for engagement of first gear,

Art Unit: 3681

only two of the second group are engaged, and including the remaining structure and controls of claims 13, 25 and 33, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.
